as the Managing Authority for
the **2021-2027 North-West
Regional Programme**

The 2021-2027 North-West Regional Programme

The **2021-2027 North-West Regional Programme** is a European funding instrument aimed at supporting the development of the **North-West Development Region** of Romania, which comprises the counties of Bihor, Bistrița-Năsăud, Cluj, Maramureș, Satu Mare and Sălaj.

Its main objective is to foster **innovation** and **smart, sustainable** economic **growth** by reducing regional disparities and improving the standard of living through the **valorisation** of local **assets** and **diversity**.

Priority 1

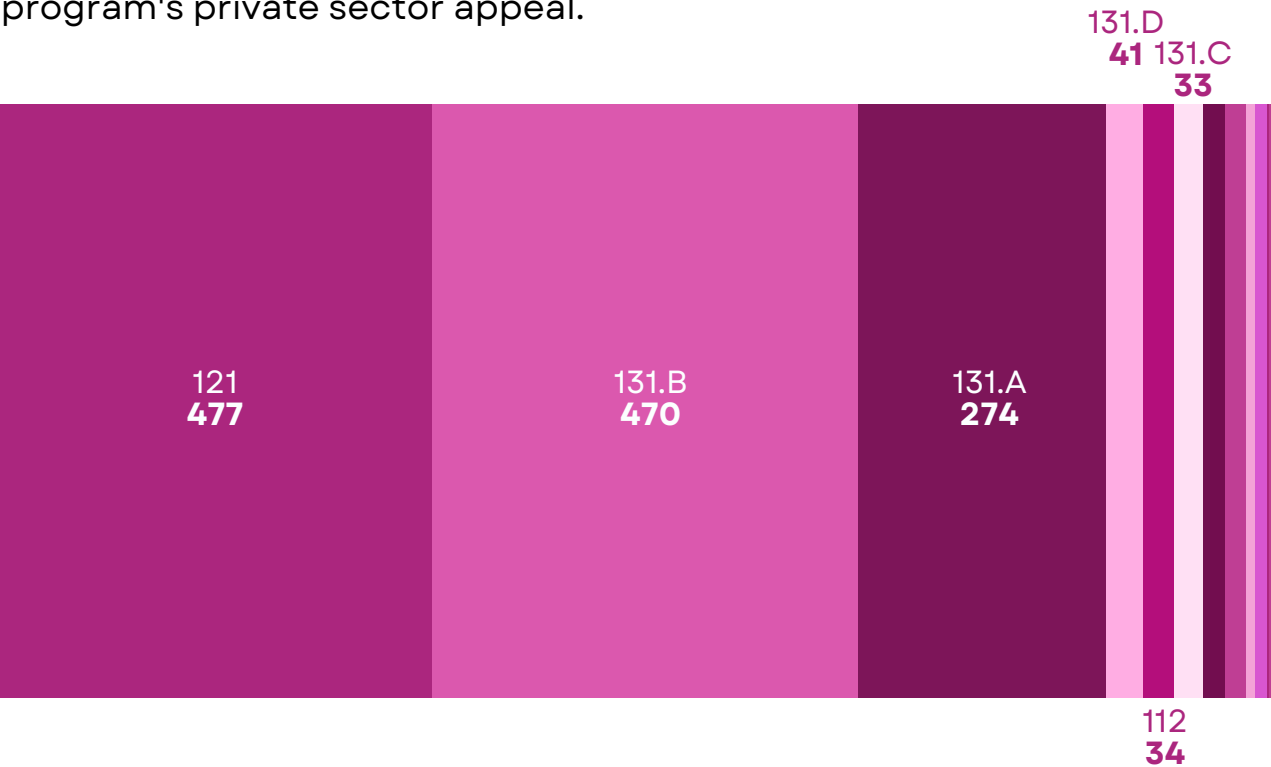

Overview

This priority marches for **a more competitive and smarter Europe**. It features Calls for Projects for SMEs, clusters, Smart Specialisation Parks and the private sector, in collaboration with public and academic counterparts.

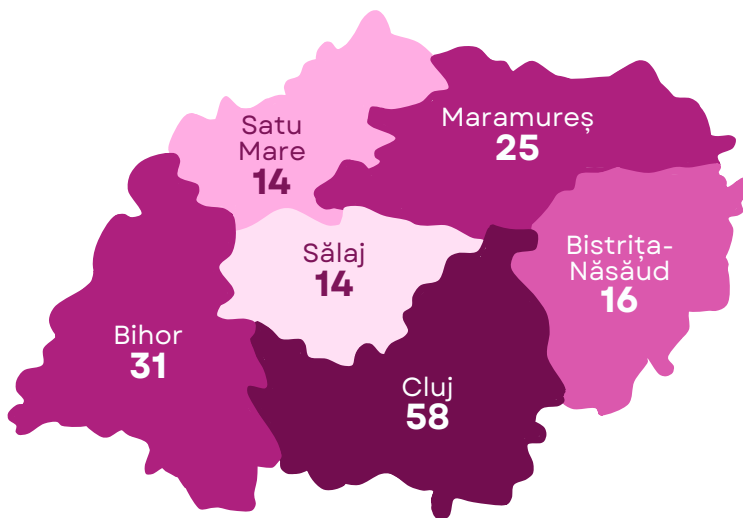

Out of the **100** contracts secured through this priority, **13** pertain to the **Smart Specialisation Parks**, while the remaining **87** support the **private sector**.

Tender 121 - Digitalization of SMEs in the North-West Development Region - saw a high uptake with **477 submissions**, highlighting the program's private sector appeal.

The town of **Șimleu Silvaniei** in **Sălaj County** is advancing its innovation potential through the development of a new **Smart Specialisation Park**, financed with over **€3 million** from the **North-West Regional Programme 2021-2027**. Led by Primăria Șimleu Silvaniei, the project will transform a 3-hectare site into a fully equipped space for **sustainable business development** and innovation-driven investments.

The park will include internal roads, advanced utility networks, digital infrastructure with high-speed internet, and green technologies such as solar panels and rainwater reuse systems. Designed to host at least **five SMEs by 2028**, the park will also **promote collaboration** with research institutions and support the town's transition to a more competitive and resilient economy.

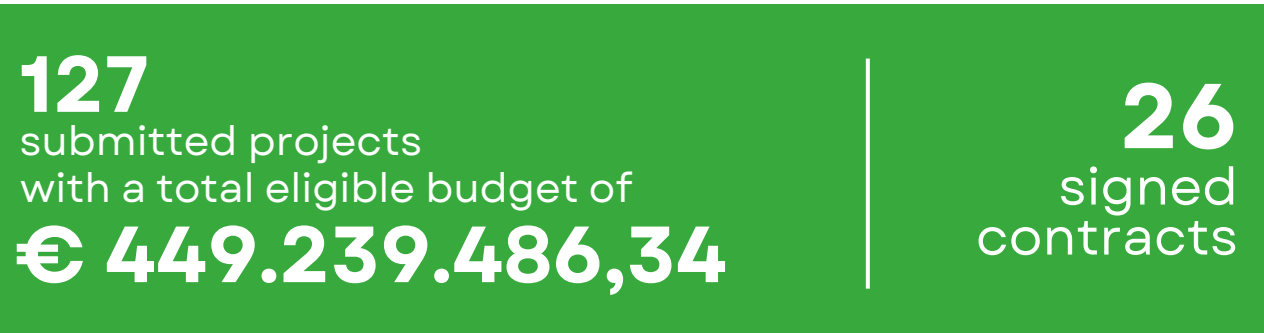

This is the second smart specialisation park in Sălaj County, after the one in Hereclean, and the 18th such investment contracted under the current programme across the North-West Region, where total commitments in this category now exceed **€109 million**.

By combining modern infrastructure with a **clear focus on innovation** and sustainability, Șimleu Silvaniei joins a **growing network of municipalities** working to **diversify the regional economy** and align with Europe's long-term development goals.

Priority 3

Overview

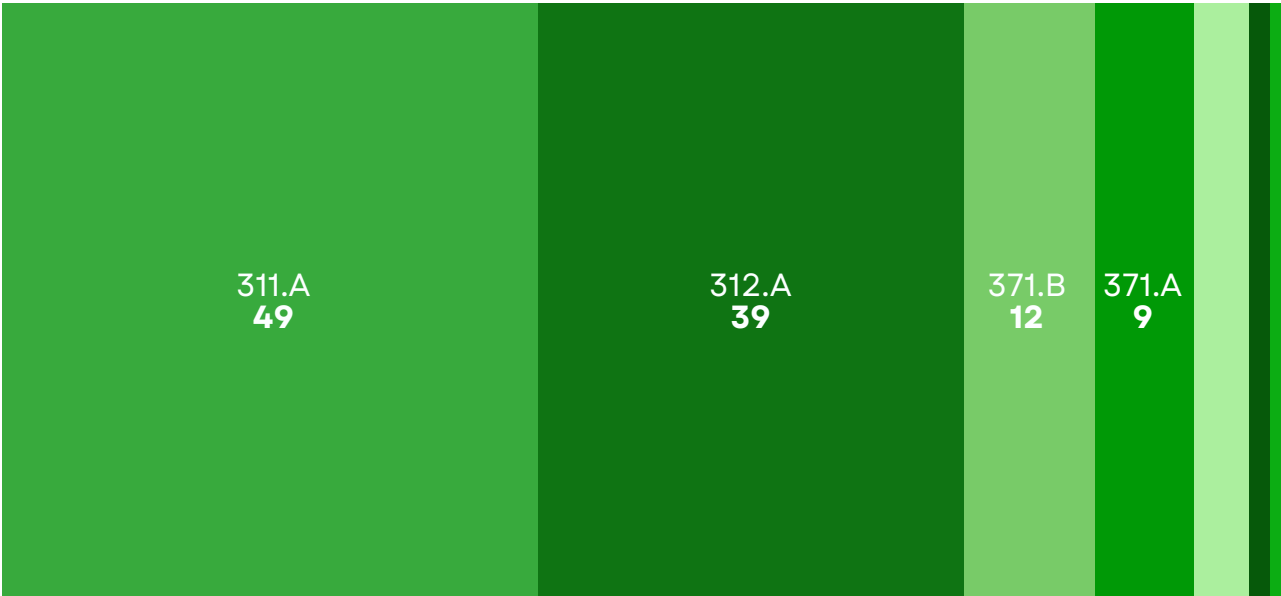

This priority marches for a **greener Europe**. It involves tenders targeting **energy efficiency in housing, public buildings (including heritage sites), and renewable energy in rural areas**. It also supports **green cities and improved urban green infrastructure**.

Out of the **25** signed contracts of this priority, **10** contracts are for **urban infrastructure** and **15** contracts for **energy efficiency in public buildings**.

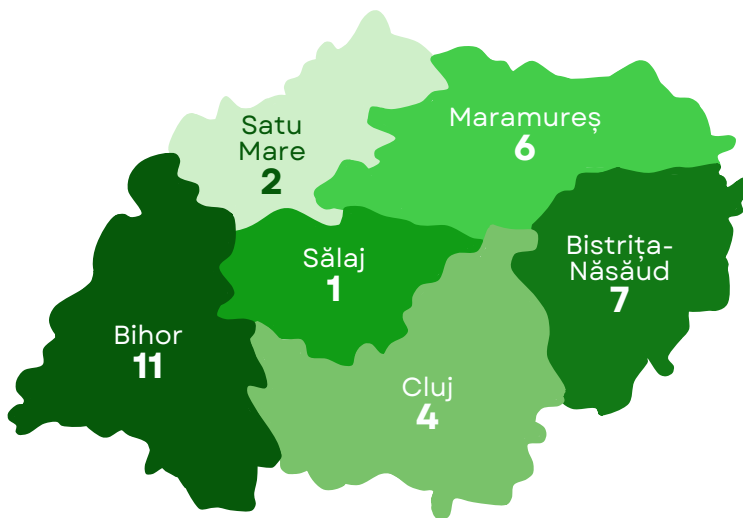

The most active calls relate to increasing **energy efficiency** in the region as part of **investments in the housing sector** and **supporting energy efficiency in public buildings, including heritage buildings**.

The historical building of the “**Mihai Eminescu National College**” in **Oradea (Bihor county)** will undergo extensive renovation to improve energy performance, thanks to a signed contract of over **€19.8 million**. The project targets one of the city’s landmark educational and heritage buildings and aims to reduce energy consumption while improving the comfort and safety of users. The renovation will deliver a **80% reduction** in annual primary energy consumption and a **95% cut** in greenhouse gas emissions compared to current levels. The works include thermal insulation, improved heating and ventilation systems, the use of renewable energy sources, and the integration of smart energy management technologies. Over **300,000 kWh/year** of energy will be supplied from renewable sources.

Covering a surface of nearly **10,000 square meters**, the building serves students and teaching staff for at least 12 hours a day throughout most of the year. Beyond environmental benefits, the investment enhances air quality, indoor comfort and long-term usability of this cultural heritage site.

Scheduled for completion in **February 2029**, this project is a strong example of how EU cohesion policy supports energy efficiency in public infrastructure while preserving cultural identity in less-developed regions.

A comprehensive sustainable mobility project is now being implemented in **Negrești-Oaș (Satu Mare County)**, supported by more than **€20.5 million** from the North-West Regional Programme 2021–2027. The initiative marks the town's first major investment in public transport and active mobility, targeting a **100% increase** in transport users and a **160% growth** in cyclist numbers.

The project includes **11.6 km of integrated bike lanes**, upgraded pedestrian routes, **31 new bus stations**, a **bike-sharing** system with **120 bicycles** and dedicated facilities for people with disabilities, as well as a modern intermodal terminal. **Four electric buses** and **six charging stations** will form the backbone of the town's newly established zero-emissions public transport network.

Twelve streets will be rehabilitated across two dedicated mobility corridors, while digital traffic management systems will improve fleet coordination, real-time passenger information, and multimodal journey planning.

The intervention is expected to serve over **6,400 residents directly** and improve daily mobility conditions for the town's entire population of **14,600**. By 2029, CO₂ emissions from transport are projected to drop by **8.11%**, alongside a **9.1% reduction** in private car use. Negrești-Oaș is taking bold steps toward climate-neutral, inclusive urban mobility.

The **Municipality of Cluj-Napoca (Cluj County)** is making a decisive investment in sustainable urban mobility and traffic safety through the construction of a state-of-the-art road underpass. With a total budget of **€26 million**, this project is a key component of the city's broader strategy to foster a more efficient, resilient, and accessible transport network.

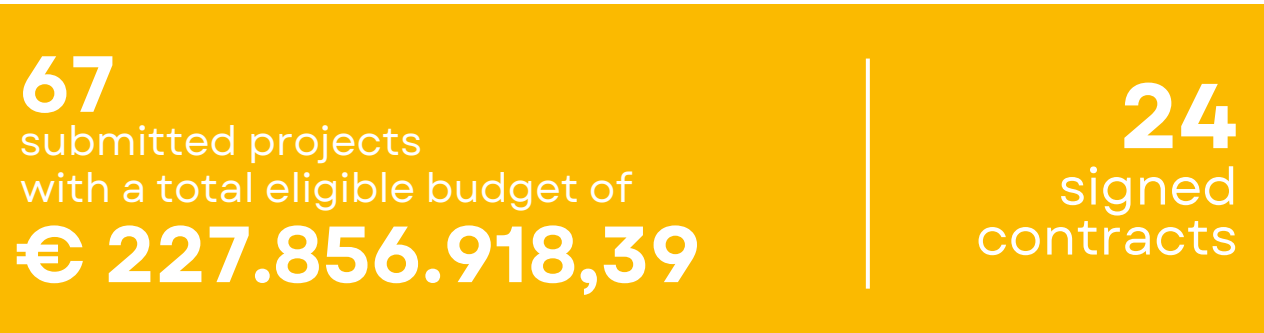

This strategic investment will deliver **275 meters** of underpass infrastructure, alongside the modernization of **444 meters** of tram tracks to enhance multimodal transport options. The project also prioritizes pedestrian and cyclist safety, incorporating **4,300 square meters** of upgraded sidewalks, **30 newly** planted trees, and **342 square** meters of dedicated public transport waiting areas.

To further **optimize mobility** and **ensure seamless** traffic flow, the initiative includes the deployment of an **intelligent traffic management** system, integrating real-time monitoring, advanced traffic signalization, and smart public transport stations equipped with passenger information panels. Additionally, a **high-efficiency LED** street lighting network will be implemented to improve visibility and contribute to energy efficiency. Beyond its immediate impact on congestion mitigation, this project is expected to **significantly enhance road safety**, reduce accident risks, and improve travel times, reinforcing Cluj-Napoca's commitment to sustainable urban development.

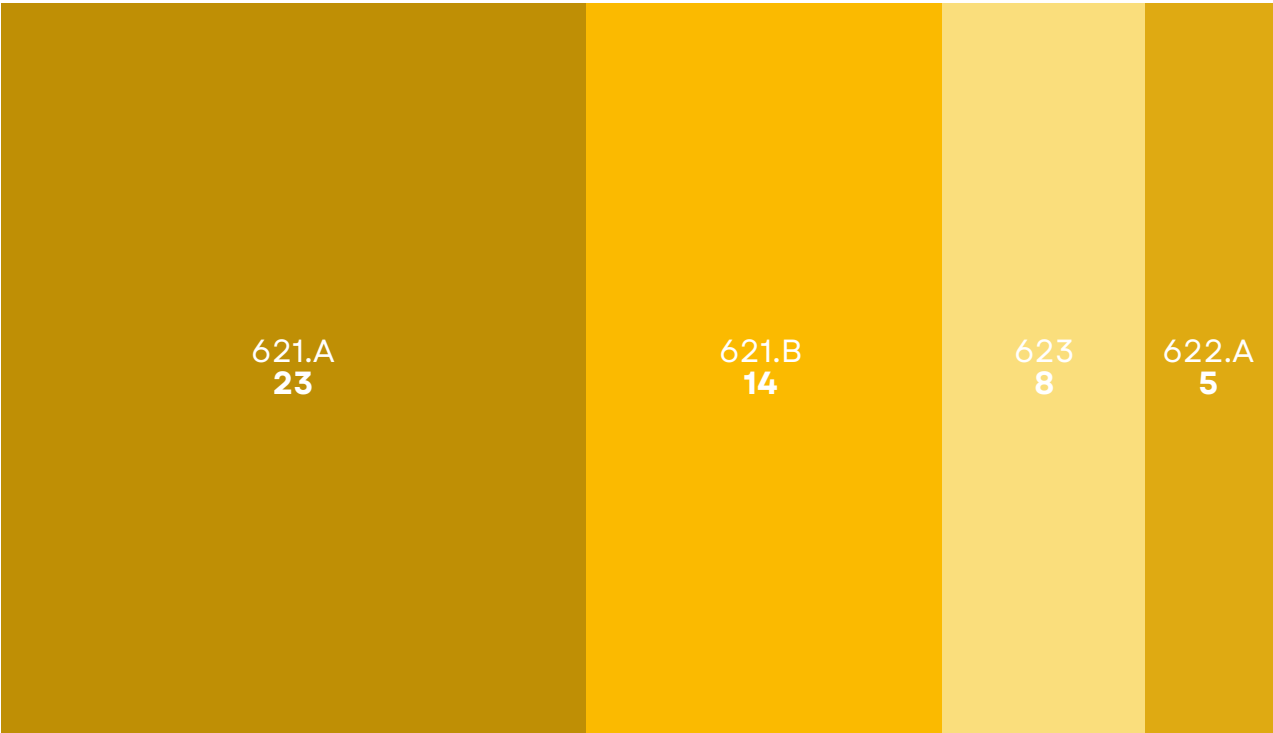

Priority 6

Overview

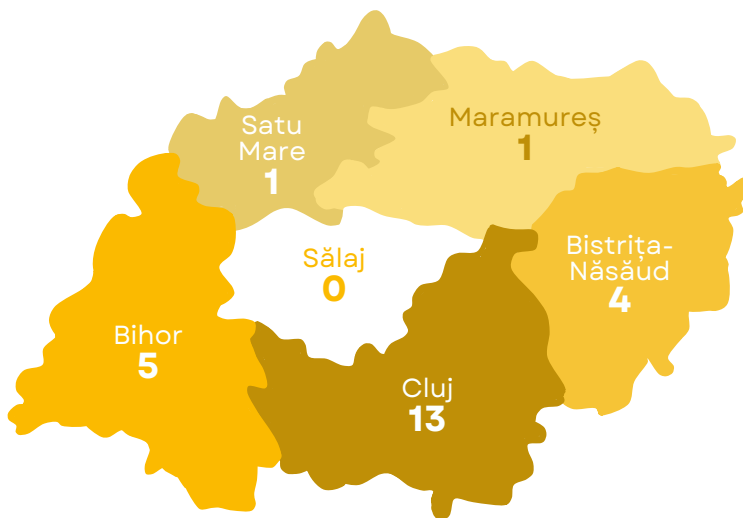

This priority marches for **a more social and inclusive Europe**. It involves tenders aimed at **enhancing educational infrastructure** across various levels, **from early childhood to university education**, and at **modernizing school facilities**.

The academic community's interest in advancing their infrastructure for future development is well seen, as the most active project calls target developments in terms of educational infrastructure.

Priority 6

€ 124.442.135,53

Rodna (Bistrița-Năsăud County) is taking a strategic step toward inclusive and future-oriented education through a **€1.95 million** investment, co-financed by the **2021–2027 North-West Regional Programme**. The project supports the **extension, modernisation, and equipment of the Florian Porcius Vocational School**.

The investment will result in the construction of two new school buildings, including **six classrooms and four technical workshops**, fully equipped to deliver practical, **labour market-relevant training** for students in the professional and technical education stream. The new facilities will accommodate up to **190 students**, while introducing **dual-education structures** tailored to evolving sectoral needs.

Designed with **accessibility, energy efficiency, and digital readiness** in mind, the new infrastructure will provide **safe, inclusive, and high-quality** learning environments. The project will help reduce school dropout rates, support transitions to higher education levels, and increase community trust in local public services. Set for completion in **March of 2028**, this initiative reinforces Rodna's commitment to preparing young people for the **jobs of tomorrow**, while offering a **scalable model for vocational education** in rural and underserved areas across the region.

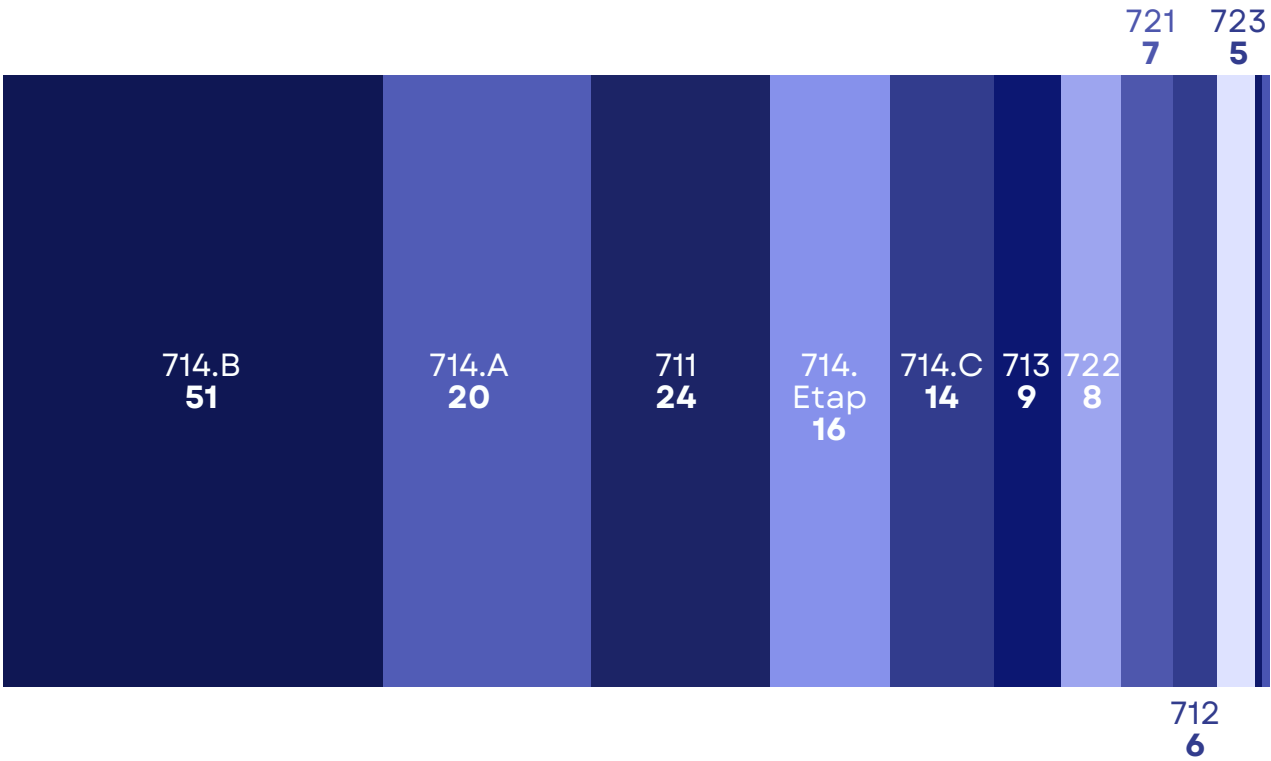

Priority 7

Overview

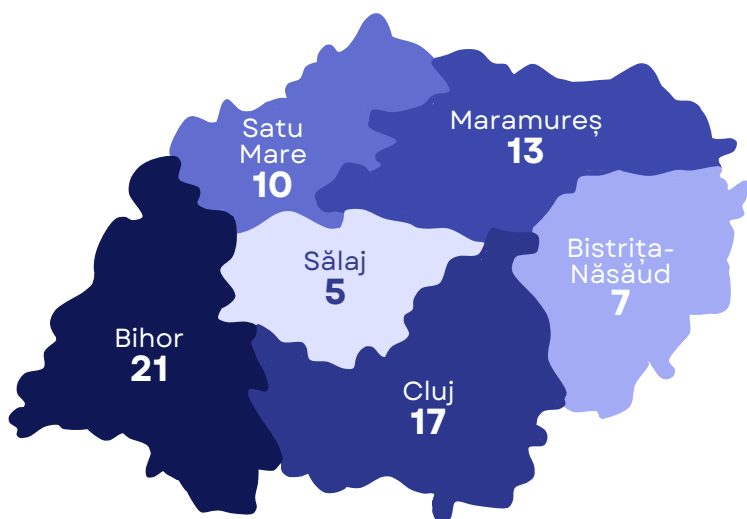

This priority marches for **a Europe that is close to its citizens**. It involves tenders promoting **integrated and inclusive development across social, economic, and environmental domains, as well as culture, natural heritage, sustainable tourism, and security in non-urban areas**.

The call for projects **714.B** - Urban regeneration and the security of public spaces has **14** signed contracts, showcasing the increased interest of the public sector beautify the cities to match the beauty of the community that inhabits each place.

Priority 7

Signed Contracts

The total eligible budget of the signed contracts

€ 427.404.376,78

The total budget of the signed contracts

€ 573.896.272,94

A landmark urban tourism investment is underway in **Baia Mare (Maramureș County)**, where over **€30 million** from the North-West Regional Programme 2021-2027 will support the development of a **large aquatic leisure complex** in the Câmpul Tineretului area. Designed as a multifunctional destination for both residents and visitors, the project aims to **enhance quality of life** while reinforcing Baia Mare's role as a metropolitan hub for **health tourism and outdoor recreation**.

The new complex will cover more than **32,000 square meters** and include indoor and outdoor pools, water slides, relaxation areas, a full restaurant, and bike-friendly pedestrian circuits. Capacity will reach **1,500 visitors** in summer and **400** in winter, while new facilities will be fully accessible, climate-resilient, and **NZEB-compliant**, incorporating green roofs, native landscaping, and rainwater management features.

The surrounding public space will be transformed into a multi-use green park with over **13,000 square meters** of vegetation, sandy sport courts, walkways, and shaded seating for over **1,000 guests**. Once completed in March 2028, the project is expected to attract over **160,000 visitors** per year and support sustainable tourism growth in the entire urban area of Baia Mare.

Completed projects

A success story.

A **major** urban regeneration **project** has been **successfully completed** in Cluj-Napoca: the revitalisation of the **Parcul Feroviarilor**, a historic green space now **fully modernised and reopened** for public use. The investment was financed through the **2021-2027 North-West Regional Programme** under Priority 7 – A more attractive region, supporting sustainable urban development.

With a total budget of over **€13 million**, the project has transformed the former railway park into a **vibrant public space** for **recreation, culture, and community interaction**. The design includes integrated green areas, new footpaths, upgraded access to the Someş River, and facilities for public events, making the park a **model for climate-resilient and inclusive urban development**.

Over **44,700 residents** are expected to benefit directly from access to the upgraded infrastructure, while more than **286,000 people** fall within the integrated territorial strategy covered by this urban intervention. Delivered in just **four months**, the project stands as a milestone of **fast and effective regeneration** under the new programming period.

The park is already recognised as an **international example of good practice** in sustainable placemaking. As of **May 2025**, the project is officially completed, with the **final implementation note submitted** and under review. Parcul Feroviarilor is now a **living proof** of how EU funds can **revitalise urban spaces** and **raise the quality of life**.
